POOJA GANGASAGAR

AWS Cloud Engineer | Cloud Infrastructure, Automation & DevOps

gangasagarpooja36@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

AWS Cloud Engineer with 3 years of experience building and operating secure, scalable workloads on AWS (EC2, VPC, S3, RDS, IAM, EKS, Lambda) and automating delivery with DevOps tools. Strong hands-on knowledge of Docker, Kubernetes, Terraform, GitHub Actions, Prometheus, and Grafana, with a record of cutting cloud costs and deployment time.

EXPERIENCE

AWS Cloud Engineer **May 2024 – Present**

Maxora IT Technology

- Design and manage AWS environments using **EC2, VPC, ALB, Auto Scaling, RDS, S3, and IAM**, achieving 99.9% uptime.
- Automate infrastructure with **Terraform** and CloudFormation, cutting environment setup time by 70%.
- Build CI/CD pipelines with **GitHub Actions** and AWS CodePipeline for automated testing, image builds, and deployments.
- Containerize applications with **Docker** and run them on **Kubernetes (EKS)** using Deployments, Ingress, HPA, and rolling updates.
- Monitor systems with **Prometheus, Grafana**, and CloudWatch; set up dashboards and alerts; use CloudTrail for auditing.
- Secure workloads with IAM, KMS, Secrets Manager, and GuardDuty; remediate findings and enforce compliance.
- Reduced monthly AWS spend by ~30% through right-sizing, Savings Plans, and S3 lifecycle policies.
- Support on-premises to AWS migrations and handle incident response and RCA.

AWS Cloud Engineer Intern **Oct 2023 – Apr 2024**

Maxora IT Technology

- Deployed and supported EC2, S3, RDS, VPC, Route 53, and ELB environments for client applications.
- Created CloudFormation templates and CodePipeline deployments, reducing manual releases.
- Managed IAM users, roles, and policies with least privilege; enforced MFA.
- Monitored workloads with CloudWatch and resolved incidents within SLA; maintained backups and snapshots.
- Wrote Bash and Python (Boto3) scripts and Lambda functions to automate patching, snapshots, and EC2 scheduling.

SKILLS

- **AWS Services:** EC2, VPC, S3, EBS, RDS, IAM, Lambda, EKS, ECS, ECR, ELB, Route 53, CloudFront, CloudWatch, CloudTrail, CloudFormation, Systems Manager
- **DevOps Tools:** Docker, Kubernetes, Terraform, GitHub Actions, Git/GitHub, Prometheus, Grafana, Trivy, SonarCloud
- **Linux & Scripting:** Amazon Linux, Ubuntu, Bash, Python (Boto3)
- **Networking:** VPC design, subnets, routing, NAT/Internet Gateway, VPN, DNS, TCP/IP

PROJECTS

LinguistAI: End-to-End DevSecOps Pipeline for MERN Application GitHub Link | Architecture Diagram

- Provisioned **AWS infrastructure** using **Terraform**, including **EC2, VPC, S3, EKS, ECR, IAM, ALB, DNS,** and Secrets Manager.
- Built **production - grade, Multi - Stage Docker images**, optimizing **build** efficiency, **image size** and **runtime performance**
- **Deployed** the **MERN application** on **Amazon EKS** using the **Kubernetes Deployments**, Services, **Ingress**, **HPA**, **Kustomize**.
- Built **GitHub Actions CI/CD pipelines** covering **automated testing, image builds, Trivy** security scans, and **deployments**.
- Configured **Prometheus** and **Grafana** for monitoring, dashboards, and alerting. Set up **rolling updates** for zero downtime.

Tech Stack: AWS, Kubernetes/EKS, Docker, Terraform, GitHub Actions, Prometheus, Grafana, SonarCloud, Trivy, ALB .

DevOps Workstation: Bash Automation Framework GitHub Link

- Built **modular Bash framework** to automate **50 Plus devops tool installations and configurations** across **Linux environments**.
- **Implemented** reusable components for **bootstrapping, package management , system validation, logging, and utilities**.
- **Designed** a modular, **plugin-style architecture** enabling the **selective tool installation and easy framework extensibility**.

Tech Stack: Shell Scripting, Automation, Linux, Git

CERTIFICATIONS

- **GitHub Actions – Hands-on Course Completion:** Three-Tier Application Deployment with GitHub Actions — Verify
- **CCNA – Course Completion** — Verify
- **Aviatrix Multicloud Network Associate** — Verify
- **Aws Certified Solutions Architect – Professional** — Ongoing

EDUCATION

- **B.E. in Computer Science and Engineering** – Sant Gadge Baba Amravati University, Amravati
